OUR VISION

To become a global technology company that transforms innovative ideas into software solutions and services for the healthcare sector.

OUR MISSION

To create quality products, business solution and deliver services that enhance operations and bring positive transformation to the healthcare sector

66

Our core strength lies in our ability to streamline applications to cater to the present and emerging needs of the healthcare sector.

ACE HIMS

ACE - HIMS is a powerful Hospital Information & Management System (HIMS) that enables Hospitals to manage complex processes, ensure regulatory compliance and promote enterprise-wide collaboration and to achieve a paperless system. It is a web based application, flexible and customizable to match the requirement of a single or group of hospitals. It's a solution designed for a wide array of hospital environments, operating in various disciplines and industries. Adhering to the current Health regulations of Middle East Countries.

J2EE based standard driven architecture that lets you achieve the best patient care practices & meaningful use standard

HIGHLIGHTS

COMPREHENSIVE SOLUTION

Complete 360 Degree coverage of all departments and operations in a Hospital

MODULAR OFFERING

Fits healthcare enterprises of all sizes (from small to large network hospitals)

MEETS GLOBAL STANDARDS

Compliance with global standards while incorporating the latest innovations

LOW COST OF OWNERSHIP

Market leading solution; comparable to best in market at relatively lower investment

USER EXPERIENCE

Enhanced user experience for greater adoption and streamlined processes.

ACE HIMS can help you achieve increased levels of efficiency and productivity at lower costs and with higher patient outcomes. It is a powerful, flexible, and easy to use, and strive to deliver conceivable benefits for standalone hospitals, multi-location super-specialty hospitals.

ACE REVENUE CYCLE MANAGEMENT

ACE RCM unifies the business and clinical sides of healthcare by coupling administrative data, such as a patient's name, insurance provider and other personal information, with the treatment a patient receives and their healthcare data.

Focus more on your patient care, because revenue is efficently managed with ACE RCM.

Communicating with the Health Insurance companies, ACE RCM checks for the patient's insurance coverage before providing services to the patient at the hospital. The ACE - RCM includes all the administrative and clinical functions that contribute to the capture, management and collection of patient service revenue following the Middle east health authority and regulatory.

ACE INSURANCE

OVERVIEW

ACE - INSURANCE is an integrated insurance management system that embodies years of cumulative experience in the design and implementation of automated insurance solutions, tailored for health / medical insurance sector.

Errors are expensive, the further an error travels through the insurance cycle, the more costly recovery becomes. Ace Insurance is a powerful module that identifies coding and billing errors as soon as possible and prevent them to the fullest extent possible.

KEY HIGHLIGHTS

- Insurance bill estimation
- Pre-Authorization
- Auto tariff calculation
- Split bills on Insurance & Co-Pay
- Single or Batch Claim Submission to TPA
- Tracking Remittance and Rejections
- Resubmission of Rejected Claims
- Age report Analysis
- XML Based claim submission for HAAD and DHA
- Supports CPT, HCPCS, DRG, ICD, LOINIC Codes, etc.
- Audit Logs & much more.

ACE - INSURANCE tackles the challanges of declining reimbursment, exessive regulation, and changing payment models that threaten the success and profitability of medical practice.

E-LAB

ACE e-Lab is a powerful Laboratory Information Management System (LIMS) that enables Labs and Diagnostic centers to manage complex processes, ensure regulatory compliance and promote enterprise-wide collaboration.
